As to the Contribution of Rs 2000/ promised by the inhabitants of Saligram it was reported by the President of the D B Urban Board that a sum of Rs 1573 had been collected & deposited in the Govt Savings Bank & that the balance of Rs 427 would be collected before the end of August '08 (Vide his letter No 70 of 20.7.06)

As to the grant payable from the Famine Fund the President in his letter No 14 of 7th Jany '07 reported that a provision of Rs 500/ will be made for the work in each year's budget for a term of 5 years. Rs 500/ has accordingly been provided in the Budget etc. In the present Communication the Chief Engineer states that the respective Contribution of that of the Municipality will have to be credited to L.F. Govt from which he requests an appropriation of Rs 4720/ being placed at the disposal of the D B Urban during the current year.

It is not known whether the balance of Rs 427 out of the Contribution promised by the people has since been received & credited to L.F. Govt as also how much of the grant payable by the Municipality has been credited to that fund.

The present proposal of the Chief Engineer for payment of establishment charges & charge for tools & plant supplied on a debit at expenditure at 18 p c, the charge for the current year amounting to Rs 720/-. It is a question whether the entire charge on account of establt charges should also be met from L F Genl as appears to be the case or whether the Sanitary Commissioner should also be called upon to contribute from funds for the same. It is also a question whether the C W D may not be asked to bear the establishment charges in the present case. The Chief Engineer may if approved be consulted unofficially on the point & may also be requested by Min dtd 25/10/07 to obtain the opinion of the Sanitary Comm on the proposal.

The Chief Engineer may be authorized to raise the C.W. Branch Grant for the current year under C.W.S. by Rs 4,000/- if the establishment and Tools and Plant charges @ 18% be waived or by Rs 4720 if these charges have to be paid

The project for the improvement of the Jeffarbatte sanctioned is for Rs 7000/- The establishment charges @ 5% and 'Tools and Plant' charges on the estimate amount @ 18% comes to Rs 1260/- These charges may be waived If they have to be paid it is a point for consideration whether the Municipal Board of Salegram has to pay Rs 1260 or

in full or whether the amount has to be deducted from Imm. Funds and the L.B. & C. Esq.

Telegram seeing a Revenue expenditure the work in question seems to be one that has to be classified under Municipal Funds rather than under L.B. & C. If this is approved, para 2 of G.O. No 8616-8 L.B. 295 06-93 the 21st March 1907 will have to be modified so to treat the grant of Rs 2500 from L.B. & C. as a grant-in-aid contribution to Municipal funds, and the people's contribution also being credited to Imm. funds.

Submitted for orders.

Where is the copy of the Estimate? Does it include the Stc charges as well as charges on account of Sealed Plant? If so, Why should they be waived? If the Estimate for Rs 7000/- does not include these charges, the point requires consideration. The Office note should have dealt with these important points.

Sir,

With reference to Government proceedings No. 8616-8/ L.B. 295-04-9 dated the 21st March 1907, sanctioning an esti-mate amounting to Rs. 7,000 for improving the Upparkatte at Saligram in the Yedatore Taluk for water supply to that town, I have the honor to inform you that it is reported by the Superintending Engineer, Western Circle, that the work could not be started during the past official year on account of the people's contribution (Rs. 2,000) not having been placed at the disposal of this Department by the Deputy Commissioner.

2. I now request that an allotment of Rs. 4,000 (which is the amount that can be spent during this year as reported by the Superintending Engineer) may be transferred to this Department from Local Funds General to which the Municipal and inhabitants' contribution will have to be credited. A sum of Rs. 720 in addition to above is also necessary on account of the usual establishment and tools and plant charges at
